

Crystal Star™
whole herbs for the whole person™

Anti-Bio™

GOLDENSEAL
an antimicrobial*

ECHINACEA
for immune defense*

YARROW
for fever relief*

ELECAMPANE
for congestion release*

Has antibiotic therapy backfired?

Even if you don't take antibiotics regularly, low doses can enter your body through commercial meats, dairy foods and produce without you even knowing it. Triclosan, a widely used antibacterial household chemical, causes certain bacteria to mutate into new strains resistant to treatment. The more antibiotics you take, the more an infection strain will try to find another way to survive and attack!

Is your immune system being challenged by today's supergerm epidemic?

Supergerms like *E. coli*, *Salmonella* and strains of drug-resistant tuberculosis, pneumonia and staph infections are a real danger in the United States today, primarily because of over-use of antibiotics. As infected people travel or move, these supergerms are migrating around the world.

Do you wonder about the benefits of herbal antimicrobials over chemical antibiotics?

Antibiotic drugs target all the bacteria in your system, including the friendly bacteria. In your intestines, the friendly bacteria protect against *Candida* yeast overgrowth, *E. coli* and *Salmonella*. Research from Baylor School of Medicine reveals that chemical antibiotics prevent immune system white blood cells from attacking and killing pathogenic bacteria. Anti-Bio™ provides an arsenal of natural antibiotics, immune boosters, lymph system cleansers and organism killers to help rid your body of infection and to keep you staying healthy, without causing side effects or drug-resistant disease strains.

Do you suffer from chronic health imbalances?

Flu, colds, sore throat, headache, coughing, abscesses, boils or sores, lethargy and fever... or poor digestion and food allergies can all result from bacterial or viral infestation. Anti-Bio™ works with your own body's "first responders" as a frontline defense and provides dynamic support to your body's immune system, safeguarding your health, especially during high risk seasons.*

Product ID#	Size

about the herbs

Echinacea Blend (*Angustifolia*, (*Purpurea*): boosts levels of the antiviral substance interferon, and promotes antiviral activity (phagocytosis).

Goldenseal Root (*Hydrastis canadensis*): a potent anti-microbial; improves liver detoxification.

Coptis Root (*Chinensis*): anti-infective; excellent for the bladder, gums, sinuses, and vagina.

Myrrh (*Commiphora myrrha*): boosts white blood cell activity.

Marshmallow Root (*Althea officianalis*): anti-inflammatory; soothing demulcent; gentle blood purifier.

Yarrow (*Achillea millefolium*): induces a cleansing sweat; especially helpful for first stages of colds or flu.

Protease: enzyme; boosts immune response and cleanses the bloodstream. A specific for bacterial and viral infections.

Capsicum Annuum: improves circulation, and enhances the effect of other herbs in the formula.

Elecampane (*Inula helenium*): decongestant; good for coughs and chronic mucous.

Turmeric Extract Powder (*Curcuma longa*): a powerful anti-microbial.

Propolis Extract Powder: plant resin from bees; natural germ killer for both staphylococcus and streptococcus.

Potassium Chloride: mineral; catalytic; enhances the effect of other herbs in the formula.
